Description:

AEC Premier Straw/Coconut erosion control blanket (ECB) is a natural, stitched straw/coconut blended blanket that provides a temporary organic cover to reduce erosion, protect seeds, enhance germination, and hasten re-vegetation. AEC Premier Straw/Coconut rolls are stretch wrapped to protect against the elements prior to installation, and may be ordered in Master-Paks of fifteen rolls banded together to minimize handling requirements. AEC Premier Straw/Coconut shall be manufactured in the U.S.A.

AEC Premier Straw/Coconut has a design soil loss ratio (event-based RUSLE C factor) of .15 and is typically suitable for slopes up to 1.5H:1V. AEC Premier Straw/Coconut is rated for channel flows up to 8.5~ft/s~(2.6~m/s) and $2.0~lb/ft^2~(96~Pa)$ shear stress.
