Description:

AEC Premier Straw Double Net FibreNet erosion control blanket (ECB) is a natural, stitched straw blanket that provides a temporary organic cover to reduce erosion, protect seeds, enhance germination, and hasten re-vegetation. The product is 100% biodegradable when biodegradable thread is ordered. AEC Premier Straw Double Net FibreNet rolls are stretch wrapped to protect against the elements prior to installation, and may be ordered in Master-Paks of fifteen rolls banded together to minimize handling requirements. AEC Premier Straw Double Net FibreNet shall be manufactured in the U.S.A.

AEC Premier Straw Double Net FibreNet has a design soil loss ratio (event-based RUSLE C factor) of .05 and is typically suitable for slopes up to 2H:1V. AEC Premier Straw Double Net FibreNet is rated for channel flows up to 7.0 ft/s (2.1 m/s) and 1.75 lb/ft² (84 Pa) shear stress.
