

American Excelsior Company®

From Curlex® to TriNet® Curlex® - A Case History of Erosion Control

American Excelsior Company invented the erosion control blanket in the 1960s with Curlex® I. Since then we have continued to innovate and improve our Curlex product line. Our Curlex based rolled erosion control product (RECP) line offers a wide variety of temporary RECPs and Turf Reinforcement Mats (TRMs). By varying the amount of Curlex fibers, changing the thread and netting materials and even adding additional nets to the product, we engineer the right product to handle your expectant forces, functional longevity and other design parameters. The pinnacle of the Curlex line evolution is TriNet Curlex, which is in our family of Curlex TRMs.

All of American Excelsior Company's products are tested at the ErosionLab®. It allows for endless studies so environmental solutions can be vetted before hitting the field. ErosionLab uses ASTM International test standards whenever possible. Curlex products are also supported by third-party testing through the National Transportation Product Evaluation Program (NTPEP).

ErosionLab

- Details: Largest privately owned erosion and sediment control research facility in North America
- Capabilities: Large scale and index testing using ASTM standards
- Location: Rice Lake, WI

ErosionLab Rainfall Testing

ErosionLab Channel Testing

Curlex Turf Reinforcement Mat (TRM) Installation Examples

- Application: Slope Stabilization
- Product: Curlex TRM
- Location: Iowa

Curlex TRM During Installation

Curlex TRM Reinforcing Vegetation

THE MOST TRUSTED NAME IN EROSION CONTROL

American Excelsior Company[®]

From Curlex[®] to TriNet[®] Curlex[®] - A Case History of Erosion Control

- Application: Roadside Slope
- Product: Curlex TRM
- Location: New Jersey

Curlex TRM on Roadside Slope

- Application: Concentrated Flow
- Product: Curlex TRM
- Location: ErosionLab - Rice Lake, WI

Curlex TRM Before

Curlex TRM During High Flow

Curlex TRM After (No Soil Loss)

THE MOST TRUSTED NAME IN EROSION CONTROL

American Excelsior Company®

From Curlex® to TriNet® Curlex® - A Case History of Erosion Control

Application: Drainage
Product: Curlex TRM
Location: New Jersey

Curlex TRM Road Drainage Before

Curlex TRM Road Drainage After

Application: Median Drainage & Embankment Protection
Product: Curlex TRM
Location: Alabama

Curlex TRM Miles of Protection After Install

Curlex TRM Miles of Protection Vegetated

Curlex TRM Protecting Slope

THE MOST TRUSTED NAME IN EROSION CONTROL

American Excelsior Company[®]

From Curlex[®] to TriNet[®] Curlex[®] - A Case History of Erosion Control

Application: Sand Mine Drainage Channel & Embankment Protection

Product: Curlex TRM

Location: Wisconsin

Curlex TRM Protecting Channel and Embankment

Application: Major Drainage Channel & Embankment Protection

Product: Curlex TRM

Location: Nebraska

Curlex TRM Protecting Channel and Embankment

Curlex TRM Protecting Channel and Embankment
