THE MOST TRUSTED NAME
IN EROSION CONTROL

Curlex® III Erosion Control Blankets

The American Made Alternative to Imported Coconut
Erosion Control Blankets

2 Weeks After Installation

3 Months After Installation

Specifiers chose Curlex III to help create a vegetated waterway to drain runoff from an adjacent golf course. Curlex III is made in the U.S. from all-natural, sustainably sourced Great Lakes Aspen excelsior fibers. Curlex III provides protection for up to 36 months. All Curlex blankets are available with synthetic or natural jute netting. With sourcing concerns and the high cost of imported Coconut fibers, Curlex III is your solution.
