TriNet Recyclex® TRM

Encouraging Vegetation Protecting Natural Resources

The Recyclex® family of TRMs have been protecting our natural resources for over 20 years! They are made using recycled post consumer waste fibers. Unlike other many other TRMs, TriNet Recyclex® does not float. This ensures good contact with the soil during hydraulic events. TriNet Recyclex® does not inhibit vegetating growth. In fact, the light color can help prevent seed burnout.
