FOR IMMEDIATE RELEASE

American Excelsior Company® Territory Manager, Harvey Dickson, Becomes CPESC Certified

Press release

Arlington, Texas, 5/10/2017 — New England Territory Manager for American Excelsior Company, Harvey Dickson, recently became a Certified Professional in Erosion and Sediment Control™ (CPESC).

Meeting the CPESC® qualification indicates that the holder has educational training, expertise and experience in controlling erosion and sedimentation, and has met certification standards.

Harvey Dickson, CPESC

Jerry Bohannon, Earth Sciences Division Director for American Excelsior Company, said, "I am pleased to announce that Harvey Dickson has been recognized as a Certified Professional in Erosion and Sediment Control. This is the industry's premier certification. It entails a rigorous testing procedure, requires a certain amount of hours in a given year of training, and further education to maintain the certification. This designation ranks alongside a professional engineer in our field and is highly coveted. Harvey joins five others in the Company who have achieved this prestigious certification."

About American Excelsior Company

American Excelsior Company is a national manufacturer of erosion and sediment control products with such brand names as Curlex®, which is widely specified by federal, state, and local agencies.

More information about American Excelsior Company and their products can be obtained by visiting www.Curlex.com, or contacting Ken Starrett, Vice President of Sales & Marketing, by calling (800) 777-SOIL (7645), or via email at kstarrett@americanexcelsior.com. ###
