Description:

AEC Premier Straw/Coconut FibreNet erosion control blanket (ECB) is a natural, stitched straw/coconut blended blanket with 100% biodegradable jute netting that provides a temporary organic cover to reduce erosion, protect seeds, enhance germination, and hasten re-vegetation. Product is 100% biodegradable when biodegradable thread is ordered. AEC Premier Straw/Coconut FibreNet rolls are stretch wrapped to protect against the elements prior to installation, and may be ordered in Master-Paks of fifteen rolls banded together to minimize handling requirements. AEC Premier Straw/Coconut FibreNet shall be manufactured in the U.S.A.

AEC Premier Straw/Coconut FibreNet has a design soil loss ratio (event-based RUSLE C factor) of .15 and is typically suitable for slopes up to 1.5H:1V. AEC Premier Straw/Coconut FibreNet is rated for channel flows up to 8.5 ft/s (2.6 m/s) and 2.0 lb/ft² (96 Pa) shear stress.
