

Curlex Power-Stop™ Archery Targets

American
Excelsior
Company®
Wood Fibers Division

Wood Fibers

American Excelsior's banded 2 bale target is designed to provide a 32" high x 34" wide face with 18" of highly compressed Excelsior for stopping power...even for penetrating carbon arrows.

High Compression

- Stops like no other target*
- Choice of three target bale sizes
- Standard 2 bale banded target
- Optional 3 bale banded target
- Single bale

Heavy Construction

- Deters theft if left outdoors year-round

All Around Use

- Great for commercial ranges
- Club ranges
- Backyard use

Fiber Expansion

Remember, excelsior fibers can be dampened after long use, which causes the fibers to expand and bring the unit back to its original strength.
