

# CURLEX®

# EVAPORATIVE COOLING PADS

American  
Excelsior  
Company®

Experience the pinnacle of natural cooling with Curlex® Evaporative Cooling Pads from American Excelsior Company, crafted from premium Great Lakes Aspen excelsior wood fibers. Our pads offer an eco-friendly and cost-effective solution for cooling homes and businesses in hot, arid climates. The exceptional quality of Great Lakes Aspen excelsior fibers ensures unparalleled cooling performance, setting our pads apart in the market.

The innovative design of Curlex fibers allows for a unique interlocking capability, preventing sagging and maintaining the pad's structural integrity for superior durability. This even distribution of fibers, both throughout the pad and along its edges, guarantees maximum cooling efficiency, providing a refreshingly cool environment.

Curlex Evaporative Cooling Pads are available in a variety of packaging options to suit your needs, including individually wrapped pads, rolls, or bulk compressed pads, all available in an extensive range of sizes. We also offer custom sizing for bulk orders or individual packages, ensuring that we meet your specific requirements. For added convenience, our individually packaged pads are perfectly suited for retail sales, making them accessible for both businesses and homeowners. Embrace the natural cooling power of Curlex Evaporative Cooling Pads for a more sustainable, efficient, and effective way to beat the heat.

## KEY BENEFITS

- ✓ **Reduce Operating Costs**
- ✓ **All Natural - Biodegradable**
- ✓ **Maximum Cooling Efficiency**
- ✓ **Quick and Easy Installation**
